

VET MEET SUMMER CAMP

MARRAKESH

June 10th - 14th

SCIENTIFIC PROGRAM

CT/MRI TRACK- MONDAY

9.00 – 10.00

**Embryology of brain and spinal development -
Neurology**

10.00 – 10:30

**Clinical presentation of cases with congenital
malformations- Neurology**

10:30 – 11:00

COFFEE BREAK

11.00 – 12.30

Fluid accumulation in the brain - FMC, RG

12.30 – 14.00

LUNCH

14.00-15.00

Cerebellar disorders - FMC, Neuro

15.00-15.30

**Brain abnormalities with Brachiocephalics - FMC,
Neuro**

15:30-16.00

COFFEE BREAK

16.00-17.30

**Congenital vascular anomalies affecting the
nervous system - FMC**

17.30-18.30

ACVR/ECVDI Resident Session - AA

US/IR/RX TRACK- MONDAY

9.00 - 10:30

Congenital AVMs: Pathogenesis, implications, and treatment evolution - CW

10:30 - 11:00

COFFEE BREAK

11.00 - 12.30

Portal and Systemic Venous Anomalies - CW

12.00 - 12.30

Congenital absence of the portal vein: Does it really exist? - CW

12.30 - 14.00

LUNCH

14.00-15.30

Feline Ureteral Strictures and associated circumcaval ureters and how we treat them: They are more common than you think! - AB

15:30-16.00

COFFEE BREAK

16.00-17.30

Congenital UPJ and UVJ stenosis: imaging findings and treatment options - AB

17.30-18.30

ACVR/ECVDI Resident Session - AA

CT/MRI TRACK- TUESDAY

SOCIAL PROGRAM of choice

12.30 - 14.00

LUNCH

14.00-15.30

Meningeal anatomy and diseases - FMC

15:30-16.00

COFFEE BREAK

16.00-17.00

Other (Multiple Cartelageneous exostosis, angiomythosis - EDI

17.00-17.30

Where else should we look, clinic etc - EDI

17.30-18.30

ACVR/ECVDI Resident Session - AA

US/IR/RX TRACK- TUESDAY

SOCIAL PROGRAM of choice

12.30 - 14.00

LUNCH

14.00-15.30

**Tracheal Malformations and bronchial compression:
the impact of the vascular system? - CW**

15:30-16.00

COFFEE BREAK

16.00-17.30

**Renal Hematuria: Congenital renal angioma's and
how you can and should save the kidney! (Vascular
and Urinary Twist) - AB**

17.30-18.30

ACVR/ECVDI Resident Session - AA

CT/MRI TRACK- WEDNESDAY

9.00 - 10:30

Tethered cord vs other caudal spinal malformations vs normal variations including clinical presentations - FMC, RG

10:30 - 11:00

COFFEE BREAK

11.00 - 12.30

Special sequences for the brain and spine - FMC

12.30 - 14.00

LUNCH

14.00-15.00

Common congenital spinal malformations... (hemivertebrae, spina bifida) - BM

15.00-15.30

...and what should radiologists know in regards to possible future recommendations, sx planning, etc. - RG

15:30-16.00

COFFEE BREAK

16.00-17.00

ACVR/ECVDI Resident Session - AA

GALA DINNER

US/IR/RX TRACK- WEDNESDAY

9.00 - 10:30

Multiple Congenital PSS: Implications and treatment options - CW

10:30 - 11:00

COFFEE BREAK

11.00 - 12.30

Urogenital Defects: vascular ectasia, uterine ectasia, vaginovesicular fistula, vestibulovaginal stenosis, persistent paramesonephric remnants, ureteral ligation during OHE, inadvertent prostatectomy during cryptorchid neutering resulting in ureteral obstruction, urethral ligation, etc - AB

12.30 - 14.00

LUNCH

14.00-15.00

Nasopharyngeal congenital and acquired stenosis: etiology, diagnosis. - AB

15.00-15.30

Oronasal fistulae - AD

15:30-16.00

COFFEE BREAK

16.00-17.00

ACVR/ECVDI Resident Session - AA

GALA DINNER

CT/MRI TRACK- THURSDAY

10.00 – 10:30

What might we learn from human inflammatory brain diseases? - RG

10.30 – 11.00

COFFEE BREAK

11.00-12.00

MUO in dogs - RG

12.00-12.30

A normal brain MRI - and now what? - RG

12.30 – 14.00

LUNCH

14.00 – 15.00

Infectious CNS disease in the dog - RG

15.00 – 15.30

Infectious CNS disease in the cat - RG

15:30-16.00

COFFEE BREAK

16.00-17.00

What other immune-mediated diseases should I look for? - RG

17.00-17.30

MRI mimics to keep in mind - RG

US/IR/RX TRACK- THURSDAY

10.00 – 10:30

**Dental radiology Intro including
Terminology/Dental Set Up - AD**

10.30 – 11.00

COFFEE BREAK

11.00-12.30

Dental and TMJ Malformations - AD

12.30 – 14.00

LUNCH

14.00 – 15.30

**Clinical Presentation and Imaging of
Brachiocephalic Dental Disease - AD**

15:30-16.00

COFFEE BREAK

17.00-17.30

Dentigerous Cysts - AD

CT/MRI TRACK- FRIDAY

09.00 - 10:30

Metabolical and congenital bone diseaeses - BM

10.30 - 11.00

COFFEE BREAK

11.00 - 12:30

**Juvenile Metaboloic Diseasorders - a focus on the
CNS - RG**

12.30 - 14.00

LUNCH

14.00 - 16.00

ACVR/ECVDI Resident Session - AA

US/IR/RX TRACK- FRIDAY

09.00 - 10:30

Bite wounds and traumata - the enemy of the juvenile oral cavity - AD

10.30 - 11.00

COFFEE BREAK

11.00 - 12:30

Clinical Presentation and Imaging of Tooth resorption of cats and dogs - AD

12.30 - 14.00

LUNCH

14.00 - 16.00

ACVR/ECVDI Resident Session - AA
